

Team Working Agreement & Roles

MIT ACT — Crennotech Group Project (Smart Document Scan AI) · Week 1 · 20 July 2026

Team Working Agreement

Item	Agreed by team
Communication channel	Microsoft Teams
Meeting frequency & day/time	Mon & Thu, 6:00 PM
Expected response time	Within 24 hours
Decision-making process	Consensus; PM decides if no agreement
File naming convention	WeekX_Deliverable_Surname_vX
Jira update rules	Move own card same day as the work
GitHub commit expectations	Commit each work session, clear messages
Conflict escalation path	PM first, then supervisor

Roles & Responsibilities

Team member	Primary role	This week's outputs
Amrit Dahal	Project Manager	Coordinate charter draft, consolidate team inputs, set up Jira epics/GitHub structure, invite supervisor
Madhab Poudel	Business Analyst	Lead business background write-up and stakeholder register/matrix
Subham Giri	Technical Lead	Research OCR/AI extraction technologies, support scope definition for the technical solution

This agreement covers all 5 weeks of the project. We will update it if roles or availability change.
